

River Rok

Natural Pebble Pool Finish

The Splendor of Nature's Beauty Captured in Your Poolscape

From a study of exposed pebbles on various surfaces in extreme climates, the idea was born to provide a tougher, time resistant surface for pool interiors...this idea became River Rok[®], an advanced, revolutionary interior pool finish.

Blended with premium natural pebbles to resemble nature in all her splendor, River Rok[®] retains its original finish even after years of exposure to nature's elements.

SGM

SWIMMING
POOL, SPA &
DECK FINISHES

A stunning alternative to traditional pool coatings, River Rok® natural pebble finish mimics the color of nature's waters in a range of individual hues that will enhance your pool's original character and transform it into a natural oasis.

Residential & Commercial Renovations:

River Rok® natural pebble pool finishes are the perfect choice for refinishing and revitalizing your poolscape. The finish colors replicate nature in all her splendor, giving your pool the natural water color of an ocean, lake, stream or grotto. Waterfalls, boulders and other natural features are enhanced by the amazing effect River Rok® has on the color spectrum as sunlight grows and fades throughout the day.

The specially formulated cement and proprietary ingredients used in River Rok® not only allows it to be applied in one day, saving on installation costs, but it results in it being virtually the most durable interior pool finish available today. Perfect for residential poolsapes, River Rok® is also formulated to comply with the demanding criteria of commercial projects with such features as ease of maintenance and time resistant durability.

Factory Trained:

SGM's Factory Trained Applicators receive a combination of comprehensive classroom and hands-on training in the application and exposure of River Rok® natural pebble finish and our other premium pool finishes. Setting the industry standard for quality, River Rok's® special installation process and pool finish materials are available through quality builders and applicators worldwide.

Warranty:

Having the best warranty program in the industry is a sign of our commitment to achieving the highest quality standards in all our swimming pool, spa and fountain finishes.

*Sample colors are as accurate as modern printing can produce. The color of your pool may vary due to water depth, landscaping, lighting conditions at job-site, mixing & installation methods. For best results, match to a sample chip.
